

Sale Agreement Flow

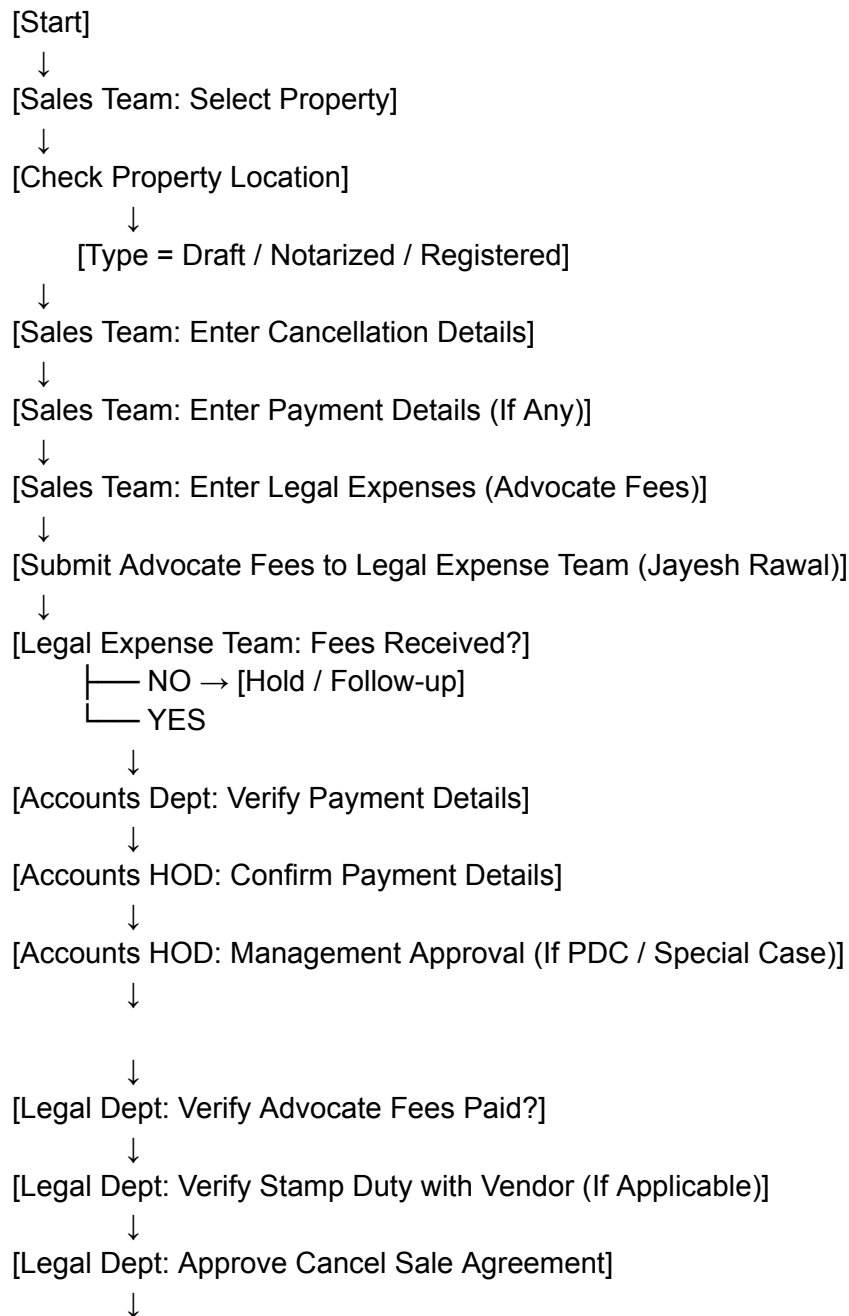

Note: At any stage of the process, **any team** (Sales, Accounts, Accounts HOD, Legal) can raise an issue related to documents or payment details. When an issue is raised, the record is temporarily reassigned to the **Assigned Team** for correction and resubmission. This issue-handling mechanism operates outside the main workflow and does not change the defined stages.

Cancel Sale Agreement Flow

Note: At any stage of the process, **any team** (Sales, Accounts, Accounts HOD, Legal) can raise an issue related to documents or payment details. When an issue is raised, the record is temporarily reassigned to the **Assigned Team** for correction and resubmission. This issue-handling mechanism operates outside the main workflow and does not change the defined stages.

[Sale Agreement Status = Canceled]

[Old Record Set to Read-Only]

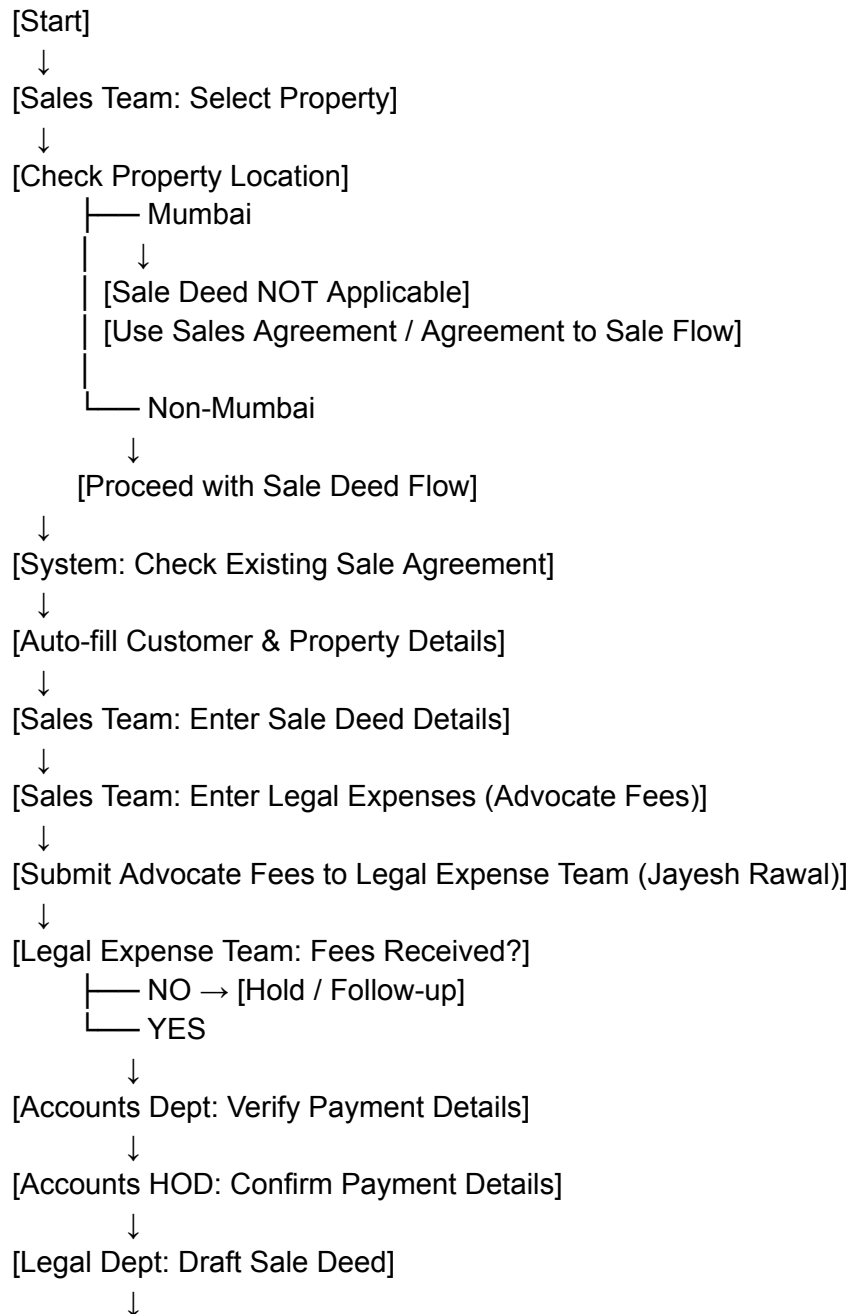

[Property Released for Reuse / New Agreement]

[End]

Sale Deed Flow

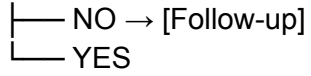

Note: At any stage of the process, **any team** (Sales, Accounts, Accounts HOD, Legal) can raise an issue related to documents or payment details. When an issue is raised, the record is temporarily reassigned to the **Assigned Team** for correction and resubmission. This issue-handling mechanism operates outside the main workflow and does not change the defined stages.
